SUBJECT: A/E CONTRACT N62477-01-D-1005, DELIVERY ORDER 4

I would like to convey our sincere appreciation for your excellent support in designing the subject project. The project which was awarded November 26, 2002, to address an unplanned relocation required by the NMCI contract, redefined what a fast track design is. Your firm did a tremendous and much appreciated job in delivering full plans and specifications on January 23, 2003. It is notable that this 58-calendar day effort took place entirely during the Thanksgiving, Christmas, and New Year holiday season. It is clear from their completeness and the abbreviated time in which they were delivered, that personal sacrifices were made. I would also like to identify your MEP consultant, Pace Collaborative, in this effort. They are obviously a key member of your team and seamlessly incorporated an entirely new, efficient and flexible HVAC system into your architectural documents.

I would like to extend my profound thanks to your firm and consultants in completing this design so quickly and completely. Your efforts will allow us to fully address the permanent relocation of the Education Center due to NMCI's requirement to occupy their existing spaces. Finally, I would like to extend my unqualified recommendation to any agency that has your firm under consideration. Your firm epitomizes the term 'GO TO' consultant.
